

FREQUENTLY ASKED QUESTIONS

about

SYSTEMIC FORMULAS

Systemic Formulas are formulated by master herbalist A. S. "Doc" Wheelwright. They are based on his many years of research and complete mastery of the herbology of both the North and South American Indians as well as the herbal traditions of China, India, Tibet, Africa, Polynesia, and Europe. These are the only authentic Wheelwright formulas and represent the newest in modern nutritional concepts and practices. They are exquisitely compounded and infinitely balanced.

Why are Systemic Formulas known as, "The Ones That Work" ?

A large, stylized number '1' with a wireframe or mesh-like texture, positioned to the left of the first paragraph.

Results!
pure and simple...
results from
thousands of clinicians
who attest to the
effectiveness of Systemic

Formulas. Why is this so? Because of the compatibility of the ingredients in Systemic Formulas which yields an outstanding formula. Just as in sports, the compatibility among players (teamwork) can make all the difference between a good team and a truly phenomenal team. With true compatibility in formulas, there is an ease of interaction and a harmonious blending of herbal properties; the ingredients complement and enhance each other. The cooperative ingredients bond together to produce a synergy impossible to achieve with single ingredients. Systemic products are properly combined based on the bio-energetic principles discovered by A. S. "Doc" Wheelwright. They are "The Ones That Work".

What makes Systemic Formulas different?

A large, stylized number '2' with a wireframe or mesh-like texture, positioned to the left of the second paragraph.

Their uniqueness, Dr. Wheelwright discovered that each gland and organ has its own unique bio-energetic signature (frequency). Herbs also have their unique bio-energetic signatures. Based on this discovery, Wheelwright carefully matched herbs (or combinations of herbs) with the same or similar bio-energetic signatures as those of the target organ/body system. No other products do this. The combination of herbs, amino acids, vitamins, minerals, enzymes, and protomorphagens makes Systemic Formulas truly unique. Herbs are the cornerstone while additional nutrients provide key supportive elements; all are properly combined to help reestablish the body's balance.

Why are Systemic Formulas a 'Best Buy' ?

3

They produce rapid results and quick recovery! While it is true that you can get cheaper products; none will do the job as quickly or efficiently. Anyone can make something a little cheaper; however, Systemic Formulas really prove that you get just what you pay for.

Systemic Formulas are extremely cost effective for 2 major reasons:

They generally require smaller dosages than most other nutritional products.

They are designed to be self-limiting which means that you don't have to use the same formula for long periods of time; however, because of their balance, they can be taken for many years.

Why are Systemic Formulas distributed only through Health Professionals?

4

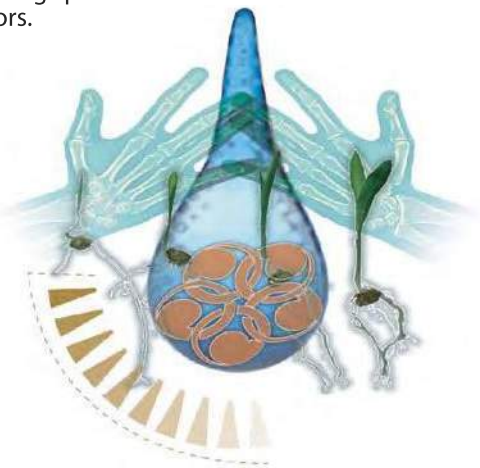

Because of their high quality and their being so powerfully effective, Systemic Formulas are best obtained from your Health Care Professional who is qualified to custom design a specific nutritional support program for each person.

Do the colors on the label mean anything?

5

Yes; Systemic Formulas are divided in groups; each group is represented by its own identifying color:

- ▶ Bio-Command Formulas (yellow label) enhance and amplify the support provided by the Bio-Function formulas.
- ▶ Bio-Function Formulas (orange label) support individual body systems.
- ▶ Bio-Nutriment Formulas (turquoise label) provide essential nourishment for the entire body.
- ▶ Bio-Extract Formulas (green label) consist of herbal extracts and tinctures identified as healing aids for the body.
- ▶ Bio-Pathic Formulas (navy blue label) provide homeopathic stimulation to specific properties of healing responses.
- ▶ Bio-Challenge Formulas (magenta label) assist in relieving specific nutritional imbalances and stress factors.

Why should I use a combination of herbs, minerals, vitamins?

6

For long term effectiveness...empirical tests suggest that a formula combining different ingredients also increases the duration any body system can profit from the ingredients it contains; the effectiveness of using any single herb rapidly diminishes. Applying his unique methods for combining herbs, 'Doc' Wheelwright produced herbal combinations which efficiently do the job while being cost effective. The potency of a single herb can usually be enhanced when correctly combined with other herbs so that the overall result is greatly augmented (the synergistic effect). The number of ingredients required to produce the desired augmentation and sustained long-term effectiveness varies from formula to formula.

What is the reason for including Brazilian herbs and herbs from all over the world in the formulas? Why are the herbs in Systemic Formulas superior?

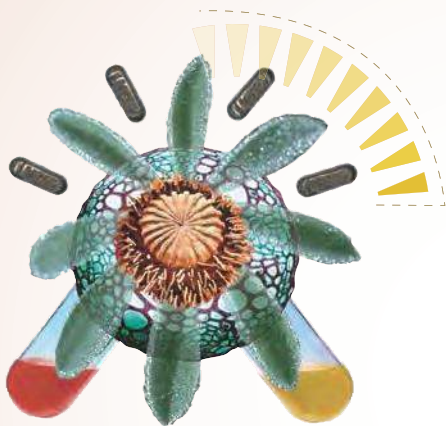

7

Their richness and vitality...there are a greater number of herbs in Brazil than anywhere else in the world. The mineral rich farm soil of the Amazon River basin yields herbs rich with "life force" vitality. Dr. Wheelwright discovered this many years ago; this fact allowed him to expand the effectiveness of Systemic Formulas significantly. In addition, during his years of global travel, he located the best and most effective herbs from all over the world...from Africa, China, Europe, India, plus North and South America. Only the highest quality of the world's herbs are used in Systemic Formulas.

What are RNA/DNA Factors, and why do you use them in some formulas?

8

RNA/DNA factors are cellular identifiers derived from benign sources. They are specific glandular or tissue extracts scientifically processed to remove any possible micro-contamination. They supply the cellular integrity factors (RNA/DNA) essential to direct nutrients to specific areas of the body. These factors provide the blueprint for what has to be done as well as supply the force to complete the job properly. This principle increases the superior effectiveness of Systemic Formulas even when they are used in small dosages.

9. Are Systemic Formulas suitable for children? How can they be used by those who can't swallow capsules?

Yes, Systemic Formulas are suitable for children; your Health Professional will work with you to determine the nutritional program (including suitable size and times for dosages) for children. A number of Systemic's products are available in a liquid tincture form which can be added to fruit juice or water. This is particularly helpful for use by children. Another method is to remove part of a formula's ingredients from its capsule and mix it with your favorite juice, apple sauce, yogurt, peanut butter, etc., for easier ingestion.

Can I use Systemic Formulas with other prescription drugs? Are they compatible with products from other lines?

Yes, Systemic Formulas are compatible with most other products. We have found, however, that, in some cases, prescription drugs interfere with the perfect balance of Systemic Formulas; in other cases, Systemic Formulas may interfere with the action of prescription drugs. To assure the best results, we recommend that they be taken at separate times of the day when possible. Use with other product lines is generally done only under the advice of your Health Professional.

Should I use Systemic Formulas with or without food?

In general, all the formulas can be used at any time needed or required. However, formulas L, Ls, R and S generally work best when taken away from food...at least one hour before or two hours after eating.

I'm allergic to one ingredient in a specific Systemic Formula; can I still use that formula?

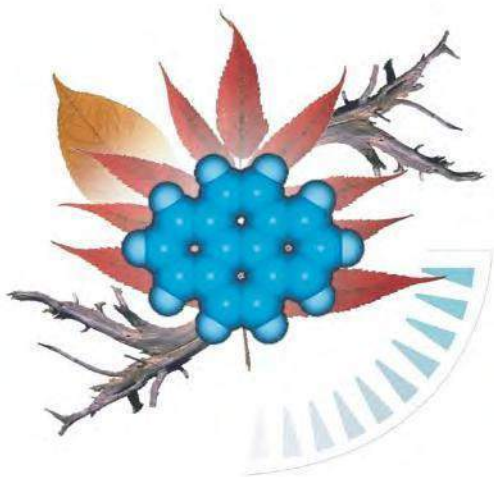

12

In many cases, Yes!...particularly if the ingredient is a minor one (as indicated by its being listed in the middle to the end of the label's list of ingredients). The blended aggregate in our properly balanced formulas has shown that herbs don't act the same as when they are taken singly. In most cases, the aggregate contained in a Systemic Formula will eliminate allergic reactions.

Why are so many Systemic Formulas in capsule form?

13

Yes, Systemic Formulas are compatible with most other products. We have found, however, that, in some cases, prescription drugs interfere with the perfect balance of Systemic Formulas; in other cases, Systemic Formulas may interfere with the action of prescription drugs. To assure the best results, we recommend that they be taken at separate times of the day when possible. Use with other product lines is generally done only under the advice of your Health Professional.

THE SYSTEMIC VISION...

Systemic Formulas is dedicated to being a recognized world leader in Nutritional Wellness based upon high ethics and sound principles of integrity, quality, safety, and honesty ultimately leading to the SYSTEMIC WELLNESS LIFESTYLE.
